History Of Blue Sail

Blue Sail Medical Co., Ltd

Blue Sail Medical Co., Ltd. commonly referred to as Blue Sail (stock code 002382) was founded in 2002 as a China-Hong Kong joint venture enterprise. Blue Sail Medical is a leading medical device enterprise with a complete portfolio of low and high value consumables.

The company is structured into four business units: i) Personal Protection Business Unit focused on medical gloves with a portfolio of medical grade PPE products; ii) Cardiovascular Business Unit focused on stents with a portfolio of interventional devices; iii) Surgical Business Unit focused on staplers and ultrasonic scalpels with a portfolio of minimally invasive surgical equipment; and iv) Wound Care Business Unit focused on first-aid kits with a portfolio of urgent care products.

This catalogue details the Personal Protection Business Unit.
